

REGISTON

BUILDING RESTORATION LTD.

ABOUT US

Here at Registon Building Restoration, We specialize in more than just the restoration of structures – our focus is on carefully considering the client’s requests to modify structures according to the building’s purpose, the original vision, and the visual aesthetic within the landscape.

We maintain a diverse skill set, specializing in concrete repairs by chipping hammers, hydro demolition, wall and column repairs, rubberized waterproofing, crack injection, elastomeric traffic deck waterproofing systems, caulking, balcony repairs, masonry repairs, exterior cladding retrofits utilizing metal sliding and/or EIFS.
