

NEW MEMBER PROFILE - GOLDEN HORSESHOE CHAPTER

Since its founding in 2007, Cabcon Contract Ltd. has been serving building owners and managers with exterior building restoration, repair and renewal solutions throughout the Greater Hamilton, Niagara and Cambridge, Kitchener Waterloo areas. Together, our teams of Restoration Technicians and industry partners/subcontractors provide Restoration services; including masonry repairs, excavation and waterproofing, building envelope rehabilitation, structural rehabilitation, general contracting services, and more. Check out our website for a complete listing of our capabilities (www.cabcon.ca).

We often partner with the best Building Science and Structural Repair Consultants in the industry to deliver technical, sometimes complicated and always high-quality projects. We are proud of our track record and our local presence west of the GTA, where we have worked hard to build lasting relationships

with our clients that go beyond the project at hand. Together, Sean Montemurro (sean@cabcon.ca) and Greg Morris (greg@cabcon.ca), the owners of Cabcon, take a personal and hands-on approach to each project. Communication throughout the project is of utmost importance to us.

We recently joined CCI to show our support for the condominium industry and to share our expertise and services with the members. In addition, the industry partners and professionals associated with CCI are an excellent resource, adding value and depth to our already excellent service.

Feel free to contact us. We are always available for a coffee to discuss things like project budgets, project planning, or specific advice on a restoration issue such as a pesky leak. We look forward to hearing from you soon; give us a call **(905) 807-7734**.
